

OWN THE ULTIMATE Valve Guide Sizing System

Special: \$1,995 (+ GST) for HF Kit or Custom Kit

- **Works on every guide material.** The **diamond abrasive** can go from cast iron to manganese bronze to chilled cast with no loss of finish. No more separate sets of reamers for differing materials.
- **Infinitely adjustable.** Each mandrel adjusts between .010" and .039" allowing you to size more guide sizes with less tooling.
- **Widest range of any guide hone system.** Size guides from .154" to .402" simply by switching the adjustable mandrels. 11 mandrels will size the same range of guides as 72 reamers!
- **Easy to use.** There are no expensive setting fixtures or adjusting tools required. The knurled adjustment screw on the drive head has an integral witness mark allowing you to make adjustments with confidence.
- **Customizable.** Get just the pieces you need or buy a kit. Ayross offers the **Standard Master Kit (HF-KIT)** with 4 mandrels that will size guides from .271" to .389", 4 valve guide brushes, the drive head and 8 oz. of Diamond Honing Oil. You can also **Build Your Own Kit (HF-KIT-CUSTOM)** by choosing which 4 mandrels and brushes you want to go with the drive head and honing oil.
